## Vote YES on New Virginia Congressional Map

To STOP the Trump regime's actions of lawlessness and move towards fascism, VOTE 'Yes' on Redistricting as this will: 1) eliminate Ben Cline by redistricting him automatically out of existence from Page County; 2) stop Speaker of the House, Mike Johnson, by ending his Republican majority; 3) put the brakes on Trump and his fascist agenda; 4) hold Trump and his regime ACCOUNTABLE for their illegal actions. This may be the last opportunity we have to use our vote as citizens as Trump and his supporters are doing everything to Nationalize Elections with only Republicans in control.

Trump started this fight by calling for redistricting in red states (Texas, North Carolina, Missouri, and Ohio, with Florida and Utah likely in the near future) and we must finish this fight by using the power of our vote to fight fire with fire. Like California, but unlike the aforementioned red states, all citizens of Virginia have an opportunity to vote on the new map. Democracy in action.

Early voting on the new map begins on **Friday, March 6**, at the Page County Admin Building (across the street from the courthouse), 103 South Court Street in Luray. You can vote YES until April 21, the final day for voting. For more information about the new maps, Go Here: <https://www.wtvr.com/news/local-news/redistricting-passes-virginia-house-feb-10-2026> to watch a WTVR clip.

Finally, please consider a donation to Rural GroundGame for their ongoing efforts to reach rural voters of all stripes. Rural GroundGame needs to raise \$20,000 to fund their dialer and fund numerous text banks to encourage Virginians to vote YES. ## Page County's Tax Reassessment Issue

As all Page County residents are painfully aware, the newest tax reassessment letters have been delivered. The dramatic increases in assessed values of property seem to utterly defy logic. The critical factor responsible for this increase is the explosive growth of the Short-Term Rental (STR) market in Page County.

A large number of these STRs are not owned or operated by locals - or even individual people. Wealthy buyers and outside commercial operations often purchase multiple units in our backyard and directly compete with our local STR entrepreneurs. As usual in this era of "Epstein Island," breaks to the wealthy equate to additional local tax burdens on the lower classes. Page County residents are encouraged to make our voices heard about this outrageous development;

# RURAL URBAN BRIDGE INITIATIVE

## RURAL URBAN DIVIDE/COMMUNITY WORKS TRAINING

TWO PARTS: FEBRUARY 16 & FEBRUARY 23RD, 7:00-8:15 PM ET ON ZOOM

### RURAL URBAN DIVIDE WORKSHOP

Our nation is increasingly divided across economics, politics and culture. While race and class play major roles in this polarization, the divide between urban and rural is perhaps the most talked about yet poorly understood component of our divisions.

Many progressives, liberals and Democrats often ask, "Why do these people vote against their own self-interests?" But perhaps the question should be, **"Why do so many people in the countryside see liberals and Democrats as opposed to their interests, dismissive of their needs, values and priorities?"**

The Rural Urban Bridge Initiative invites you to host "Understanding and Overcoming the Rural-Urban Divide", a highly acclaimed two-part presentation and discussion.

### WHAT YOU'LL LEARN

Learn from leading thinkers and activists about the causes of the rural-urban divide and how to overcome it.

- The five underlying causes of the rural urban divide
